

We are Joyson Safety Systems – A Mobility Safety Company.

Joyson Safety Systems ist einer der global führenden Entwickler und Hersteller von automobilen Insassenschutzsystemen mit einem Umsatz von ca. 5,3 Mrd. Euro und weltweit mehr als 43.800 Mitarbeiterinnen und Mitarbeitern. Wir stehen für Innovation und Fortschritt. Als zuverlässiger und kompetenter Partner der Automobilindustrie konzipieren, entwickeln und produzieren wir Insassenschutzsysteme und -komponenten. Unser Produktportfolio besteht aus Lenkrädern, Airbags und Generatoren, Sicherheitsgurten, technischen Kunststoffteilen, Elektronik und Sensorik. Damit beliefern wir weltweit nahezu alle namhaften Kraftfahrzeughersteller.

Joyson Safety Systems is one of the leading global developers and manufacturers of automobile occupant protection systems with a turnover of ca. 4,8 billion euros and more than 50,000 employees worldwide. We represent innovation and progress. As a reliable and skilled partner of the automobile industry, we design, develop and produce occupant protection systems and components. Our portfolio includes steering wheels, airbags and generators, safety belts, technical plastic components, electronics and sensor technology which we supply to nearly all renown vehicle manufacturers worldwide.

Our team in Arad needs support and we are seeking:

Manager Advanced Planning (all genders) -Department: Logistics EMEA-

Site:
Arad

What you can change – your duties

- Process owner of the EMEA Rolling Forecast and Annual Operations Planning (AOP) processes
- Coordination and training for data allocation and BOM maintenance during the AOP planning cycle
- Management reporting on budgets, sales development and forecast performance
- Analysis, visualization and interpretation of mid- and long-term customer and market behavior to derive actions
- Leadership of monthly Business Unit Alignment Meetings, presenting customer behavior, potential bottlenecks and cross-plant impacts
- Development and implementation of the JSS-EMEA-wide S&OP planning process as Project Lead
- Key User responsibility for S&OP tools on EMEA level
- Contribution to the design and implementation of streamlined digital processes and system landscapes for mid- and long-term planning
- Leadership of the EMEA Advanced Planning team
- Interface management between Plant SCM, Sales, Purchasing and Controlling across all S&OP-related topics

Continuous review and improvement of logistics and planning processes, including the development of logistics business cases (concept design and cost analysis)

Impress us - your qualifications

University degree in Business Administration, Industrial Engineering or a comparable field, ideally with a focus on Logistics or Supply Chain Management

Several years of experience in supply chain planning within the automotive industry, with strong expertise in S&OP tools , SAP and ideally SAP IBP

Proven multi-project management skills and experience guiding cross-functional and cross-regional teams and stakeholders

Strong leadership qualities, high sense of responsibility, assertiveness and a structured, hands-on, results-oriented working style

Excellent communication and management skills, business-fluent English; German is an advantage

Willingness to travel regularly
