

We are Joyson Safety Systems – A Mobility Safety Company.

Joyson Safety Systems ist einer der global führenden Entwickler und Hersteller von automobilen Insassenschutzsystemen mit einem Umsatz von ca. 5,3 Mrd. Euro und weltweit mehr als 43.800 Mitarbeiterinnen und Mitarbeitern. Wir stehen für Innovation und Fortschritt. Als zuverlässiger und kompetenter Partner der Automobilindustrie konzipieren, entwickeln und produzieren wir Insassenschutzsysteme und -komponenten. Unser Produktportfolio besteht aus Lenkrädern, Airbags und Generatoren, Sicherheitsgurten, technischen Kunststoffteilen, Elektronik und Sensorik. Damit beliefern wir weltweit nahezu alle namhaften Kraftfahrzeughersteller.

Joyson Safety Systems is one of the leading global developers and manufacturers of automobile occupant protection systems with a turnover of ca. 4,8 billion euros and more than 50,000 employees worldwide. We represent innovation and progress. As a reliable and skilled partner of the automobile industry, we design, develop and produce occupant protection systems and components. Our portfolio includes steering wheels, airbags and generators, safety belts, technical plastic components, electronics and sensor technology which we supply to nearly all renown vehicle manufacturers worldwide.

Our team in Aschaffenburg needs support and we are seeking:

Director of Supplier Quality Nomination and Qualification (all genders)

Site:

Aschaffenburg

What you can change — your duties

Responsible for establishing a Global Methodology for Nomination and Qualification of suppliers starting from the Design Phase until after PPAP.

Part of the Global Supplier Quality Management Leadership team.

Will monitor and promote the use of proactive systems and component risk assessments as well as development of mitigation plans in advance of pre-selection/sourcing decisions.

Form strategic alliances and partnerships that will enable supplier operations to achieve higher levels of supplier industrialization readiness to better fulfill the corporate and market requirements.

Support the development and execution phase deliverables to assure flawless launch results and supplier readiness including the use of safe launch strategies and problem resolution reviews.

Drive positive supplier relations by ensuring supplier launch preparedness and efficient interfaces for suppliers given advanced/new technology, material, design challenges.

Leverage commodity specific supplier manufacturing best practices during engineering design and development with engineering to ensure the execution of a process-driven design.

Will lead the development and subsequent updates of the critical component list

Drive a “zero defects” attitude across the department.

Drive actions to achieve KPI’s and support all supplier quality, capacity and cost targets

Work together with the Purchasing colleagues to define supplier strategy with active participation in supplier nominations in every region.
