

## We are Joyson Safety Systems – A Mobility Safety Company.

Joyson Safety Systems ist einer der global führenden Entwickler und Hersteller von automobilen Insassenschutzsystemen mit einem Umsatz von ca. 5,3 Mrd. Euro und weltweit mehr als 43.800 Mitarbeiterinnen und Mitarbeitern. Wir stehen für Innovation und Fortschritt. Als zuverlässiger und kompetenter Partner der Automobilindustrie konzipieren, entwickeln und produzieren wir Insassenschutzsysteme und -komponenten. Unser Produktportfolio besteht aus Lenkrädern, Airbags und Generatoren, Sicherheitsgurten, technischen Kunststoffteilen, Elektronik und Sensorik. Damit beliefern wir weltweit nahezu alle namhaften Kraftfahrzeughersteller.

Joyson Safety Systems is one of the leading global developers and manufacturers of automobile occupant protection systems with a turnover of ca. 4,8 billion euros and more than 50,000 employees worldwide. We represent innovation and progress. As a reliable and skilled partner of the automobile industry, we design, develop and produce occupant protection systems and components. Our portfolio includes steering wheels, airbags and generators, safety belts, technical plastic components, electronics and sensor technology which we supply to nearly all renown vehicle manufacturers worldwide.

**Our team in Arad needs support and we are seeking:**

## MES Coordinator EMEA -EMEA Application Manufacturing Engineering Systems

Site:  
**Arad**

### What you can change — your duties

- Administration, optimization and adaptation of the MES software network (currently HYDRA) at all EMEA locations with the aim of standardized data management and processing with the associated reporting system;
- Ensuring the proper functionality of the software as well as the adaptations;
- Definition, adaptation and control of interfaces to superior systems (ERP: INFOR, SAP) and subordinate systems (PLC, OPC, SQL-databases);
- Coordination of conception, realization and introduction for new implementations and release changes;
- Project and support management with the respective software suppliers;
- Coordination of projects and consulting regarding MES functionalities, process flows and material flow planning;
- Training and support of key users at the EMEA locations;
- Participation in developing concepts for possible future technologies and networks;

– Collaboration in establishing standards (e.g. traceability, process data acquisition) and creating system requirements.

---

## **Impress us - your qualifications**

- Technical University degree - industrial engineering, information systems or comparable fields of study;
  - Deep knowledge and practical experience in the described area of responsibility;
  - Very good knowledge in the following areas: production processes and material flow planning, MES Systems (e.g. HYDRA), ERP systems (e.g. INFOR, SAP), Linux operating system;
  - Experience in PLC programming and OPC UA technology is an advantage;
  - Basic knowledge in programming languages VB-script, C/C#, Java, SQL;
  - Ability to think analytically and networked, as well as affinity for digitalization;
  - Excellent intercultural competence as well as communication skills;
  - Knowledge in project management;
  - Very good written and spoken English;
  - Willingness to travel.
- 

## **What we offer — your benefits**
