

We are Joyson Safety Systems – A Mobility Safety Company.

Joyson Safety Systems ist einer der global führenden Entwickler und Hersteller von automobilen Insassenschutzsystemen mit einem Umsatz von ca. 5,3 Mrd. Euro und weltweit mehr als 43.800 Mitarbeiterinnen und Mitarbeitern. Wir stehen für Innovation und Fortschritt. Als zuverlässiger und kompetenter Partner der Automobilindustrie konzipieren, entwickeln und produzieren wir Insassenschutzsysteme und -komponenten. Unser Produktportfolio besteht aus Lenkrädern, Airbags und Generatoren, Sicherheitsgurten, technischen Kunststoffteilen, Elektronik und Sensorik. Damit beliefern wir weltweit nahezu alle namhaften Kraftfahrzeughersteller.

Joyson Safety Systems is one of the leading global developers and manufacturers of automobile occupant protection systems with a turnover of ca. 4,8 billion euros and more than 50,000 employees worldwide. We represent innovation and progress. As a reliable and skilled partner of the automobile industry, we design, develop and produce occupant protection systems and components. Our portfolio includes steering wheels, airbags and generators, safety belts, technical plastic components, electronics and sensor technology which we supply to nearly all renown vehicle manufacturers worldwide.

Our team in Arad needs support and we are seeking:

Expert EMEA SAP - Customer Service and Production Planning

Site:
Arad

What you can change — your duties

Ensures implementation of SAP Customer Service/Production planning processes in all JSS EMEA plants according to global template and continuously improves the SAP JSS template

Works with plant implementation team to create customer service/production planning plant assessment, ensuring that plant processes are covered with existing SAP functionality – highlights deviations and where SAP prerequisites are not met

Collects plant specific activities not included in the SAP Global Template and coordinates the development of plant specific processes/align plant processes to SAP Global template

Organizes and moderate customer service/production planning team status, reporting and working meetings

Develops with the plant team suitable customer service/production planning structure and ensures efficient planning processes

Closely collaborates with the Plant implementation team, Rollout Team, Quality Assurance team, Global organization and other deployment teams, act as ambassador for standardized structures in One JSS

Organizes trainings and coordinates training materials preparation in the fields covered by customer service/production planning

Active part of the Planning Center Of Excellence meetings and change management meetings.

Plan and conduct testing session to ensure the proper functionality of the implemented solutions

Provide troubleshooting support during Hypercare phase after SAP implementation

Impress us - your qualifications
