

We are Joyson Safety Systems – A Mobility Safety Company.

Joyson Safety Systems ist einer der global führenden Entwickler und Hersteller von automobilen Insassenschutzsystemen mit einem Umsatz von ca. 5,3 Mrd. Euro und weltweit mehr als 43.800 Mitarbeiterinnen und Mitarbeitern. Wir stehen für Innovation und Fortschritt. Als zuverlässiger und kompetenter Partner der Automobilindustrie konzipieren, entwickeln und produzieren wir Insassenschutzsysteme und -komponenten. Unser Produktportfolio besteht aus Lenkrädern, Airbags und Generatoren, Sicherheitsgurten, technischen Kunststoffteilen, Elektronik und Sensorik. Damit beliefern wir weltweit nahezu alle namhaften Kraftfahrzeughersteller.

Joyson Safety Systems is one of the leading global developers and manufacturers of automobile occupant protection systems with a turnover of ca. 4,8 billion euros and more than 50,000 employees worldwide. We represent innovation and progress. As a reliable and skilled partner of the automobile industry, we design, develop and produce occupant protection systems and components. Our portfolio includes steering wheels, airbags and generators, safety belts, technical plastic components, electronics and sensor technology which we supply to nearly all renown vehicle manufacturers worldwide.

Our team in Arad needs support and we are seeking:

SAP Sales Change Expert for SAP Competence Center & Rollout Team

Site:

Arad

What you can change — your duties

- Responsible to define, validate and maintain a quality-assured documentation of their process area in the SolMan (incl. EnableNow) that allows the industrialized Rollout with multiple projects in parallel
- Support keeping the JSS Enterprise SAP S/4 Configuration (Mindset, Organization, Processes, Technology, Information) in a defined standard with an adequate localization adaption
- Participate and improve change processes to assess impacts on Enterprise Configuration and align with Line Business objectives
- Works with plant implementation team to create plant assessment, ensuring that plant processes are covered with existing SAP functionality – highlights deviations and where SAP prerequisites are not met
- Monitor the progress of SAP and NON-SAP Change orders for the sales area of the respective responsibility
- Collaborate with the Project Workstream-Team Leads, Plant implementation team, Quality Assurance team and other deployment teams in their area of responsibility in all JSS plants in their region and act as

ambassador for standardized structures in One JSS

- Support the Sales & Distribution (OTC) workstream in raising the process quality for OTC in time and in quality and support the adoption in the plants, and also find innovations and improvements
 - Communicate with the sales team on changes and also with customers to clarify details and drive the implementation of changes
 - Communicate with the SAP sales workstream and support all related changes
-

Impress us - your qualifications
