**We are Joyson Safety Systems –
A Mobility Safety Company.**

Joyson Safety Systems è uno dei maggiori sviluppatori e produttori globali di sistemi di protezione interna dei passeggeri delle automobili con un fatturato di circa 4,8 miliardi di euro e oltre 50.000 dipendenti in tutto il mondo. Siamo sinonimo di innovazione e progresso. In qualità di partner affidabili e competenti dell'industria automobilistica, sviluppiamo e produciamo sistemi e componenti per la protezione interna dei passeggeri. Il nostro assortimento di prodotti è composto da volanti, airbag e generatori, cinture di sicurezza, pezzi di plastica tecnici, elettronica e sensoristica. Riforniamo in tutto il mondo praticamente tutte le case automobilistiche più note.

La nostra squadra ha bisogno di crescere a Aschaffenburg - cerchiamo:

Director of Supplier Quality Nomination and Qualification (all genders)

Sede:

Aschaffenburg

Cosa potete fare - le vostre mansioni.

Responsible for establishing a Global Methodology for Nomination and Qualification of suppliers starting from the Design Phase until after PPAP.

Part of the Global Supplier Quality Management Leadership team.

Will monitor and promote the use of proactive systems and component risk assessments as well as development of mitigation plans in advance of pre-selection/sourcing decisions.

Form strategic alliances and partnerships that will enable supplier operations to achieve higher levels of supplier industrialization readiness to better fulfill the corporate and market requirements.

Support the development and execution phase deliverables to assure flawless launch results and supplier readiness including the use of safe launch strategies and problem resolution reviews.

Drive positive supplier relations by ensuring supplier launch preparedness and efficient interfaces for suppliers given advanced/new technology, material, design challenges.

Leverage commodity specific supplier manufacturing best practices during engineering design and development with engineering to ensure the execution of a process-driven design.

Will lead the development and subsequent updates of the critical component list

Drive a "zero defects" attitude across the department.

Drive actions to achieve KPI's and support all supplier quality, capacity and cost targets

Work together with the Purchasing colleagues to define supplier strategy with active participation in supplier nominations in every region.
