**We are Joyson Safety Systems –
A Mobility Safety Company.**

Joyson Safety Systems este unul dintre cei mai importanți dezvoltatori și producători globali de sisteme de siguranță a pasagerilor din industria auto, cu vânzări de aproximativ 4,8 miliarde de euro și peste 50.000 de angajați în întreaga lume. Noi reprezentăm inovație și progres. Ca partener de încredere și competent pentru industria auto, proiectăm, dezvoltăm și producem sisteme și componente pentru siguranța pasagerilor. Portofoliul nostru de produse cuprinde volane, sisteme de airbag și generatoare, centuri de siguranță, componente tehnice din plastic, componente electronice și senzori. Furnizăm sisteme de siguranță aproape tuturor producătorilor importanți de autovehicule din întreaga lume.

Echipa noastră are nevoie de forțe noi în Aschaffenburg — căutăm:

Director of Supplier Quality Nomination and Qualification (all genders)

Locație:
Aschaffenburg

Ce poți schimba / Cu ce poți contribui — sarcinile tale

Responsible for establishing a Global Methodology for Nomination and Qualification of suppliers starting from the Design Phase until after PPAP.

Part of the Global Supplier Quality Management Leadership team.

Will monitor and promote the use of proactive systems and component risk assessments as well as development of mitigation plans in advance of pre-selection/sourcing decisions.

Form strategic alliances and partnerships that will enable supplier operations to achieve higher levels of supplier industrialization readiness to better fulfill the corporate and market requirements.

Support the development and execution phase deliverables to assure flawless launch results and supplier readiness including the use of safe launch strategies and problem resolution reviews.

Drive positive supplier relations by ensuring supplier launch preparedness and efficient interfaces for suppliers given advanced/new technology, material, design challenges.

Leverage commodity specific supplier manufacturing best practices during engineering design and development with engineering to ensure the execution of a process-driven design.

Will lead the development and subsequent updates of the critical component list

Drive a “zero defects” attitude across the department.

Drive actions to achieve KPI's and support all supplier quality, capacity and cost targets

Work together with the Purchasing colleagues to define supplier strategy with active participation in supplier nominations in every region.
